### **Laws and Rules**

#### **Aircraft- Unlawful use (MCA 87-6-208)**

- It is unlawful for a person to shoot a game animal from an aircraft.
- It is unlawful for a person to use an aircraft for the purpose of concentrating, pursuing, driving, rallying, or stirring up any game animal.
- Aircraft may not be used to locate game animals for the purpose of:
  - hunting those animals during the same hunting day after a person has been airborne; or
  - providing information for another person for the purpose of hunting those animals within the same hunting day after being airborne.

#### **Archery Equipment (MCA 87-6-401, CR)**

- It is unlawful to use any chemical or explosive device attached to an arrow to aid in the taking of game animals.
- The following criteria define Archery Equipment. It is unlawful to use, while hunting game during any Archery-only Season and in Archery Equipment Only areas, archery equipment that does not meet the following criteria:

**Hunting Bow:** A hunting bow for game animals shall be a longbow, flatbow, recurve bow, compound bow, or any combination of these designs.

- The bow must be a device for launching an arrow, which derives its propulsive energy solely from the bending and recovery of two limbs (includes bows with split limbs).
- The bow must be hand drawn by a single and direct uninterrupted pulling action of the shooter. The bowstring must be moved from brace height to the full draw position by the muscle power of the shooter's body. The energy used to propel the arrow shall not be derived from any other source such as hydraulic, pneumatic, mechanical, or similar devices. These limitations shall not exclude the mechanical leverage advantage provided by eccentric wheels or cams, so long as the available energy stored in the bent limbs of the bow is the sole result of a single, continuous, and direct pulling effort by the shooter.
- The bow must be hand-held. One hand shall hold the bow and the other hand draw the bowstring. The bowstring must be moved and/or held at all points in the draw cycle entirely by muscle power of the shooter until release. The bowstring must be released as a direct and conscious action of the shooter, either relaxing the tension of the fingers or triggering the release action of a hand-held release aid.
  - **Exception:** Physically disabled bowhunters certified by FWP with the Permit To Modify Archery Equipment (PTMAE) are exempted from the requirement of holding or shooting the bow with their hands.
- A bow is considered legal if it is at least 28 inches in total length.
- The nominal percent of let-off for hunting bows shall be a maximum of 80 percent as advertised by the manufacturer.

**Arrow:** An arrow is a projectile at least 20 inches in overall length. The length of the arrow is measured from the rearward point of the nock to the tip of the broadhead.

- A broadhead is mounted on the fore end.
- The arrow shall weigh no less than 300 grains with the broadhead attached.
- Arrows must have broadheads with at least two cutting edges and be at least 7/8 inches at the widest point. Expandable broadheads are legal as long as when expanded they are at least 7/8 inches at the widest point, and weigh no less than 70 grains.

**The following are not considered a hunting bow or legal archery equipment during the Archery-only Season or in an Archery Equipment Only area or hunting district:**

- crossbow
- any device with a gun-type stock or incorporating any device or mechanism that holds the bowstring at partial or full draw without the shooter's muscle power
- any bow for which a portion of the bow's riser (handle) or any track, trough, channel, or other device that attaches directly to the bow's riser contacts, supports, and/or guides the arrow from a point rearward of the bow's brace height. This is not intended to restrict the use of standard overdraw systems.
- electronic or battery-powered devices attached to a hunting bow or arrow that aides in the taking or locating of any game animal or game bird. **Exception:** Camera devices attached to bows for the sole purpose of filming are allowed.
- a bow sight or arrow which uses artificial light, luminous chemicals such as tritium, or electronics. **Exception:** an arrow may have a lighted nock.

#### **Artificial Light (MCA 87-6-401)**

#### **Dogs (MCA 87-6-404)**

It is unlawful for a person to use dogs to chase game animals. Dogs may be utilized to recover or locate wounded game animals but handlers shall maintain physical control of the dog at all times by means of a maximum 50-foot lead attached to the dog's collar or harness.

#### **Evidence of Sex (MCA 87-6-406)**

A person who kills a game animal in this state shall retain evidence of sex of the animal with the carcass until it is processed. The provisions of this section do not apply to a game animal harvested using a license with which either sex of the animal may be taken. Evidence of sex does not need to be naturally attached. ## Trichinella in Black Bears

Trichinella is a parasite of mammals and some birds. Immature parasites develop cysts in the muscle of the host animal and are transmitted to a new host when infected meat is eaten raw or undercooked. Wild animals rarely show signs of infection. Humans and domestic dogs or cats can become infected with Trichinella by consuming raw or undercooked meat from an infected animal. Symptoms of infection vary and may be severe. All bear and mountain lion meat should be treated as if it were infected. Freezing will not kill the organism; however, cooking at temperatures above 165 degrees Fahrenheit will kill the parasite. Many processing techniques (jerky and smoked meats) may not reach the proper temperature. FWP recommends that all mountain lion and bear meat be well cooked to an internal temperature of 165 degrees before consumption by humans or pets. FWP does not offer Trichinella testing. For further information, call the FWP lab at 406-577-7882.

## Hunter Access

Hunters, it is your responsibility to know where you are, to know who owns the land, and to know what access restrictions apply. Check FWP's website at [fwp.mt.gov/hunt/access](http://fwp.mt.gov/hunt/access) for information on FWP's Block Management Program.

## Fishing Access Sites

Many of Montana's fishing access sites (FAS) offer hunting opportunities, however certain restrictions may apply such as no-hunting safety zones and/or restrictions on the type of hunting weapon or firearm that may be used. Refer to the Fishing Access Site website at [myfwp.mt.gov/fishMT/explore](http://myfwp.mt.gov/fishMT/explore) for site specific information, opportunities and restrictions.

## Federal Land Access

- National Parks Service: National Parks are closed to hunting. For other lands administered by the National Park Service, please contact the specific site managers for additional information.
- National Wildlife Refuges – More restrictive regulations, including species-specific restrictions and closures, may apply to national wildlife refuges open to public hunting. Contact the specific refuge and/or visit [fws.gov/refuges](http://fws.gov/refuges) for additional information.
- U.S. Forest Service: Area-specific closures or restrictions may apply. Inquire at the appropriate Regional Forest Service Office.
- Bureau of Land Management: Area-specific closures or restrictions may apply. Inquire at the appropriate BLM Field Office.
- Other federal lands: Area-specific closures or restrictions may apply. Inquire at the local federal land management agency office.

Unlawful Posting of State or Federal Land (MCA 45-8-115): It is unlawful for a person to knowingly post land that is under the ownership or control of the state or federal government to restrict access or use of state or federal land.

## Indian Reservation Trust Lands

Some reservations may offer game animal hunting opportunities with the use of Tribal licenses to non-members. Please contact the appropriate Tribal Government. See "Contacts Outside FWP" on page 16 for contact information.

## Montana State Parks

Some of Montana's state parks provide hunting opportunities; however, certain restrictions may apply such as no-hunting safety zones and/or restrictions on the type of hunting weapon or firearm that may be used. Contact the specific park and/or refer to the Montana State Parks' website at [stateparks.mt.gov](http://stateparks.mt.gov) for site specific information regarding hunting opportunities and restrictions.

**Private Lands-** See landowner permission.

## Railroad Access

Railroads and railroad rights-of-way are private property and may not be hunted without permission, nor should they be used as access to other lands (private or public) without explicit permission from the railroad.

**State Game Preserves-** See Restricted Area Descriptions.

## State School Trust Lands

Additional information, including closures and restrictions, is available from the DNRC at 406-444-2074

- A Conservation License provides hunters, anglers and trappers access to lawfully accessible State School Trust lands for related activities during applicable seasons. Additional permitting is required through the Department of Natural Resources and Conservation (DNRC) for trapping on trust lands.
- Overnight use must not exceed the following limits: two consecutive days on leased land, 16 consecutive days within designated campgrounds or on unleased land.
- Motorized travel is only allowed on public roads or on roads designated as open. This restriction applies to all activity including game retrieval.
- Firearms may not be discharged upon trust lands within one-quarter mile of inhabited dwellings or outbuildings on state trust lands without permission of the inhabitant.
- Open fires are prohibited outside of fire pits within designated campgrounds.

## State Wildlife Management Areas (WMA)

FWP's WMAs are generally open to hunting during the game animal hunting season. WMAs with big game winter range are closed to public entry, unless otherwise posted, from the day following the end of the general deer-elk season or December 1, whichever is later, to noon on May 15 each year, as posted.

**Exception:** There are several exceptions to these guidelines. For WMA-specific information, please call the regional office (see page 16 for contact numbers) or visit the FWP website at: [fwp.mt.gov/conservation/wildlife-management-areas](http://fwp.mt.gov/conservation/wildlife-management-areas)

## Stream Access Law

The Stream Access Law does not allow for the hunting of game animals between the ordinary high water marks of streams and rivers without landowner permission.

# Carry Bear Spray and Know How To Use It!

- Hunting puts you at risk of encountering a bear. Calling game and using scents may attract bears.
- If you hunt alone, let someone know about your plans. If you feel uneasy hunting alone, hunt with a partner.
- Bears are opportunists and change their behavior to take advantage of new food sources. Always assume that grizzlies are in the area and make sure your camps, cabins, and homes are bear proof, and that bear attractants are unavailable or contained.
- Mentally rehearse a worst-case scenario with encountering a bear. "If the mind has never been there before, the body does not know how to respond."
- To minimize the likelihood of attack or chances of human injury, make certain you have bear spray at the ready and know how to use it. In sudden grizzly encounters, bear spray has proven effective. Bears sprayed in the face at close range often stop attacking. Always maintain a safe distance from bears.
- Report encounters with grizzly bears to FWP at 1-800-TIP-MONT, U.S. Forest Service, or one of the nearest FWP bear management specialists listed below:

Kevin Frey, Bozeman, MT 406-577-7876

Rory Trimbo, Anaconda, MT 406-465-9343

## General Bear Distribution in Montana

**In an actual emergency,  
phone 9-1-1.**

Seeing a grizzly is not necessarily a reportable encounter or an emergency. Report encounters where the bear displayed aggressive or defensive behavior toward people, livestock or pets.
